DETAILED ACTION

1. This office action is responsive to the following communications: the Amendment after Non-Final Rejection filed on August 3, 2007.
2. Claims 1, 3, 7-10, 12, 14-25, are pending in the present application. Claims 1, 8, 9, 12, are independent claims.

Priority

3. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed in parent Application No. JP 2002-202026, filed on July 11, 2002.

Allowable Subject Matter

4. Claims 1, 3, 7-10, 12, 14-25, are allowed.
5. The following is an examiner's statement of reasons for allowance: regarding independent claims 1, 8, 9, 12, the prior art fails to teach or suggest a TMR element with a selection transistor formed in a silicon substrate, in which two magnetic shielding layers comprised of the same soft magnetic metal are formed over the silicon substrate and a bit-line of a magnetic non-volatile memory device. These elements are especially distinguished from a magnetic TMR head that can be used in a hard drive device, which, although structurally similar, is not used in conjunction with a selection transistor in a magnetic memory device. Independent claims 1, 8, 9, 12, are therefore deemed to be allowable over the prior art. Claims 3, 7, 10, 14-25, are dependent on the allowable independent claims and are therefore also deemed allowable over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
